

REQUEST FOR INFORMATION FOR A CONTRACTOR DATABASE

South32's purpose is to make a difference by developing natural resources, improving people's lives now and for generations to come. We are trusted by our owners and partners to realize the potential of their resources.

We are committed to the development of our host communities in areas we operate. Our focus areas for host communities are education and leadership, economic participation; good health and social wellbeing; and natural resource resilience.

Introduction

Hotazel Manganese Mines (HMM) is inviting interested entities from our host communities with relevant skills and experience in the below categories to submit requested documentation. This information is to enable HMM to build a database of potentially qualifying suppliers for possible inclusion in potential future opportunities that may become available at the mines. It is important to note that all qualifying suppliers will not automatically become a vendor to the mines.
